

Grange Primary School

Grange Primary provides the best quality for learning and ect. It is filled with many activities such as mathematics, English and more. Any child who is lonely, no worries! We have a plenty of good STAFF who are capable of taking care of these types of children.

The school lunches are delicious. They serve healthy food with vitamins and protein. We believe that food gives energy to learn about life.

Our playground has many fun activities and thanks to our play leaders, it's even more enjoyable to play sports, games and more. It gives children a break from using their minds and use their physical strength to fresh childrens minds.

We are still trying to improve our school by adding clubs that children could enjoy and more nature around the school. We have also achieved a lot from 2006! We have won the following: Trophies, Certificates, Prizes and medals.

In conclusion, this school is full of happiness, kindness and behaviour. This school is an amazing representative to others. This is a school you can look at to learn!
