

Grange Primary School - by Rizqin Chowdhury

Grange Primary provides the best quality for learning and more. There is a lot of terrific things and so much to do. Any child will feel welcomed and have their best time here. Their knowledge will expand and their skills will develop.

Our school has the most outstanding, trained teachers and staff, and our dedicated, determined headteacher. They will assist you with all of the children and work hard day and night to make their students successful. There are colourful classrooms full of joy and our honourable library with interesting books you will be lost in.

We have our cooks that produce appetizing, mouth-watering meals you will instantly fall in love with. Grange also has many options of sides containing the following: different types of salad, bakery-bread, cheese and much more. In case a child has allergies, we have allergy free food and they're all halal. Also, we include a healthy food status for people with packed lunches and children who bring food for their birthday.

In my opinion, Grange is a perfect fit for any child. We have lots of positive things and this is a truly extraordinary school.
